

Designated “Investment Corner” set up in all branches of Fubon Bank

Effective 30 September 2009, Fubon Bank (the “Bank”) will set up designated “Investment Corner” in all branches to provide comprehensive wealth management services.

“Investment Corner” is one of the measures introduced by the Bank to meet the new requirements set out by the Hong Kong Monetary Authority (“HKMA”) regarding sales of investment products. Meanwhile, the Bank will set up clear signage so that customers can easily distinguish between “Investment Service” area and “General Banking Service” area in our branches.

To let customers familiarize with the new customer service arrangement, “Investment Corner” will start operation gradually from early September 2009. “Investment Corner” will be officially launched on 30 September 2009 in all branches to provide comprehensive wealth management services.
