

Online Transaction Verification Service

Online shopping has become popular nowadays. In order to enhance the security level of your online transaction, we will launch the **One-Time Password Online Transaction Verification Service** (Verified by Visa and MasterCard SecureCode Service) to customers starting from November 2014. This service is hassle free and **free of charge**.

How can I be benefited from Online Transaction Verification Service

1. Offers the added benefit of password protection to prevent your Fubon credit card from being used by unauthorised third parties on the internet, so that you can shop securely online.
2. Free of charge
3. Hassle free, no registration is required
4. One-Time Password, to avoid the inconvenience of memorizing the password

How does the Online Transaction Verification Service work?

Step 1

Shop with the VISA or MASTERCARD credit card issued by Fubon Bank at the **online store with the “Online Transaction Verification Service”**

Step 2

The online store will automatically recognize that your credit card is protected by **“Verified by Visa or MasterCard SecureCode Service”**

Step 3

Receive a SMS-based One-Time Password sent by Fubon Bank to your registered mobile phone number of your credit card account

Step 4

Enter the One-Time Password correctly at the transaction page

Step 5

Complete the transaction process

TIPS

1. One-Time Password is only valid for a preset period of time
2. If you have not registered your mobile phone number for the credit card account, please register via our 24-hour Customer Service Hotline at 2566 8181 or visit our branches
